REVIEWS

I've been using Sessia for 6 months, and I keep discovering new things in it all the time. For instance, I found out that there is a geo-search option which helps find a store or a company close to your home.

I read up on company news and promos in the Feed, comment on my friends' purchases, communicate with them in a secure chat. I also like the fact that Sessia offers numerous ways to withdraw cashbacks with practically no commissions.

I first saw Sessia on a friend's phone – we were sitting in a coffee shop, and before we left he handed his phone to the waiter, who scanned the QR code. "Here's the cashback," he said, "lightning-fast, as always." I was curious, and downloaded and installed Sessia at once. Now when I go to a café, salon or place an order in a store, I choose those that work with Sessia.
